A solid growth story: a continuous process

- Xior intends to continue its **growth strategy** by adding quality student properties and by completing further its development pipeline in Belgium, The Netherlands, Spain and Portugal
 - ✓ Xior is currently negotiating various **investment opportunities** of various sizes and at various stages of a typical investment process.
 - ✓ Xior has made a **non-binding offer** (and is currently negotiating on a non-exclusive basis) for the acquisition of a large, operational and very modern student residence in a large student city in the Netherlands, where Xior is already present. If the potential seller were to choose the Company from entering into exclusive negotiations and the potential seller and the Company were to come to an agreement, this property would be in the top 3 of the portfolio (at fair value) at a yield in line with Xior's usual expectations. For the avoidance of doubt, it is specified that the Company obviously cannot guarantee that
 - (i) it will be retained for exclusive negotiations,
 - (ii) the potential Seller and the Company would come to an agreement and/or
 - (iii) this potential transaction will eventually take place.
 - ✓ Xior participates in **tender procedures** on an ongoing basis, issued by local authorities and/or educational institutions in student cities in Belgium and the Netherlands, and there are currently several registrations to such procedures. In these procedures, Xior is always one of several market participants, and of course no certainty can be given as to whether and when an award decision will be made, or whether, as the case may be, Xior will have made the winning proposal.

Covid-19 update

Creativity is

having fun.
Albert Einstein

Covid-19 update: Operational BE & NL

Rental season started long before the second Covid wave -> **limited impact on rental rates**

- ✓ Smooth start of new rental season
- ✓ Higher **retention rates** in some cities
- ✓ **Healthy mix** of national and international students
- ✓ Focus on **national students** in Belgium
- ✓ **Scarcity** in the Netherlands: domestic students compensate lower demand of internationals
- ✓ Still steady demand of **international students** (cfr. Woudestein)

Academic year started up as normal as possible offering a mix of online and on-campus courses

- ✓ It's not only about on-campus lessons : students need independence and the student life **experience**
- ✓ Students **moved in** safely, easily and normally
- ✓ Students **had full knowledge** of new outbreaks and possible new measures and restrictions
- ✓ Don't expect students to terminate contracts (second wave is not an unexpected event)
- ✓ Recent **extra restrictions** and universities moving to code orange or red in Belgium

Demographic breakdown student population¹

Covid-19 update: Operational SP&PT

Operations

- ✓ Improved **processes**, implementation of new **policies**, finalisation of new **tenancy contract** for Spain
- ✓ Strict **Covid protocols** implemented and functioning well
- ✓ **Team** composition improved, generating platform **synergies**
- ✓ **Payment discipline** in current AC; two delinquencies so far, actively addressing

Rental season

- ✓ **Barcelona**: Demand is affected by less international students and absence of tourism causes additional supply from tourism sector at low prices
- ✓ **Madrid and Granada**: on track (Granada 2yr triple net lease)
- ✓ **Portugal**: slower ramp-up of new residences is compensated by **EBITDA guarantee** by U.hub

Demographic breakdown student population¹

1. Situation as per 30 September 2020 for closed contracts for academic year 2020/2021
