# Operational Update

# Operational update

## UPCOMING ACADEMIC YEAR 2022-2023

### Strong demand fuels rentals and rent prices

- **Massive search** for student rooms in all four countries
  - Rental season started **significantly earlier** in all four countries
  - Higher **retention** (up to 80%)
  - Several cities rented out in **record time**
- Short term nature of student contracts, **rising inflation** can be absorbed more quickly. Also Utility costs are **protected** against inflation
- Implemented **rent increases have no effect on the increasing demand** for student rooms
- **Increasing pricing power** on the back of growing student population and existing scarcity. **Rental income is maximised** without losing sight of affordability.

#### Current letting rates<sup>1</sup>:

- **NL: c.99%** (99% in 2021)
- **BE: c.95%** (93% in 2021)
